Frameworks / Libraries:	React, Vue.js, Next.js, Tailwind CSS, Chart.js
CMS / E-Commerce:	WordPress, Shopify, WooCommerce, Kentico, Wix, custom themes, ACF, custom post types
Quality / Optimization:	WCAG accessibility, SEO, performance optimization, cross-browser and cross-device testing
Tools / Workflow:	Git, GitHub, Bitbucket, CI/CD pipelines, Agile development, code reviews
Database / Back-End:	MySQL, PHP for WordPress theme development, API integration

WORK EXPERIENCE

Freelance Web Developer

July 2025 - Present

- Designed, developed, and maintained several e-commerce websites for a Canadian client, focusing on responsive layouts, product presentation, usability, and conversion-friendly user experience.
- Built and supported online storefronts for Sovereign Duty Free, Sovereign Smoke, Sovereign Cigarettes, Toro Vape, and Sativa Bliss.
- Implemented custom website sections, landing pages, product pages, navigation updates, forms, and promotional content using CMS and front-end technologies.
- Performed website updates, troubleshooting, browser/device testing, performance checks, and SEO-friendly content adjustments to keep client stores stable and user-friendly.
- Project websites: sovereigndutyfree.com, sovereignsmoke.ca, sovereigncigarettes.com, torovape.com, sativabliss.ca.

Seven Seven Global Services Inc.

Applications Engineer / Developer 4 - App Dev | Nov 2019 - June 2025

- Developed and maintained scalable, responsive, and user-friendly websites and web applications.
- Collaborated with designers, back-end developers, and business stakeholders to implement new features and improve website performance.
- Implemented a reusable internal design system with components such as headers, footers, forms, tabs, and modals to maintain UI consistency and speed up development cycles.
- Built mobile-first, SEO-friendly microsites for marketing campaigns and optimized them for fast loading times.
- Integrated internal APIs and web services into web pages to enable seamless real-time data display and improved user experience.
- Conducted cross-browser and cross-device testing to ensure functionality, accessibility, and consistent user experience.
- Used Git for version control, participated in code reviews, and worked within Agile sprint planning and daily stand-up routines.
- Created interactive forms and real-time data updates using JavaScript and AJAX, and debugged existing applications to resolve issues.

Blueprint Solutions Group

Web Developer | 2015 - 2019

- Developed and maintained client websites with a focus on front-end design, responsiveness, usability, and functionality.
- Designed and developed fully custom WordPress themes from scratch using PHP, HTML5, CSS3, and JavaScript.
- Integrated custom post types, Advanced Custom Fields (ACF), and theme options to improve content flexibility and admin usability.
- Optimized websites for performance, accessibility, mobile-first layouts, SEO, security, and scalability.
- Collaborated with designers and clients to translate wireframes and brand guidelines into functional, visually appealing websites.

Click4Corp

Web Developer | 2014 - 2015

- Converted PSD designs into HTML/CSS coded websites with responsive and standards-compliant layouts.
- Balanced client requirements with website best practices, accessibility, and usability standards.
- Worked closely with UX/UI designers to implement user-friendly interfaces.

Coefficients Co. Ltd.

Web Development Consultant | 2012 - 2014

- Advised clients throughout the full web development cycle and helped translate business needs into functional websites.
- Redeveloped static and dynamic websites and created e-commerce websites using CMS platforms and third-party APIs.
- Converted PSD designs into HTML/CSS and WordPress websites, collaborating with designers to create clean and intuitive interfaces.

EDUCATION

Bachelor of Science in Computer Science

Manuel S. Enverga University | 2008 - 2014
